

Build a Fairy House!

The nature center is a magical place, especially in June when the wildflowers are still springing anew and everything is freshly green and lush. But something is missing- homes for the inevitable magical creatures (like fairies!) who surely live here! This is a call for builders! For the month of June, we invite folks to build fairy houses along our trails.

Use natural materials to get creative building a perfect home for fairies or other woodland creatures.

We want to see what you make! Take a picture of your creation and share with us by scanning the QR code.

Draw a picture of your house and who may visit!

Thank you to the Vermont Community Foundation for awarding LCCD the Spark Grant to provide monthly self-guided activities here at the nature center, as well as seasonal family events.
